[View in our Internet](#)

Good morning! I hope everyone has been staying safe and is getting ready for our next training ride. We are keeping an eye on the weather - again! As of 6:00 am today, the weather looks like we may see some rain overnight, possibly as late as 7 am and rain later Saturday but things are looking OK for the ride. We'll provide a weather update in the Friday late update and, if the weather is still a potential issue, we'll make sure to keep you informed - in long as you read our email, our Facebook page and/or call the hotline at 281-367-6001.

Today's ride covers the following topics:

- Training Ride #2 - Fulshear-Brookshire, Feb 23, 8:00 am
- Safety Corner - Feedback/Questions from First Ride

Training Ride #2 - Fulshear-Brookshire - Feb 23, 8:00 am - 23, 27 (or 31) miles

This week, we're staying fairly close to home and, since many of our riders are still on their first or second ride now, or in quite a while, we'll offer another classic route that includes short (23) and medium (27) options as well as an optional extra 14-mile loop for riders moving fast enough to just hit the cut-off time and get a 51-mile ride in. The route is a standard figure eight with a 23-mile west loop and a 14-mile east loop. The roads are flat again - we'll remain pretty flat until Ride 4 next week when we'll see our first riding road.

Please note that we're starting from a new high school and this is the second time they have hosted our bike ride as *The Junior Society and other student groups are going to be out before the ride serving breakfast and possibly serving after the ride.* Please bring cash for the breakfast and/or for lunch as we help the students raise funds for their community service projects and they will want us to come back next year.

Directions to Fulshear High School, 9302 Bois D Arc Ln, Fulshear, TX 77443

To get to the start, take I-10 to the Westpark Tollway west to the Grand Parkway. From I-29, take the Grand Parkway south to the FM-1063 exit and take the Westpark Tollway west to where it ends at the Grand Parkway. Head west on FM-1063 from the Grand Parkway and drive approx. 7 miles to the light at Bos Drive. Turn right at the light and the new high school is on the right about 1/4 mile from the turn. We'll be parking in the lot behind
