We have some very important safety information to share but first, a few very brief news items...

- **There is a break in our schedule this coming Saturday, Feb 26.** We'll be sending a reminder about the Probing the Peaks ride at the Vicksburg County Parkgrounds for those of you who are looking to get a ride in. We'll note a discount code as well - watch your inbox Wednesday...
- **We discovered a minor bug in the Ride with GPS app which causes our vertical axes to be mixing, when you download a route to your phone.** We normally recommend downloading the routes, ahead of time, so the route is on your phone and will be accessible, even if you have very weak cell service. For the time being, skip the downloading recommendation and just use the routes accessible online, on our Club page. Most of you are already doing this, so it's simpler and more intuitive in the app. The bug issue should not impact too many of you. Ride with GPS is aware of the issue and are working on a fix.
- **We got some good feedback from some of you regarding the Saturday ride in Fullerton.** While you loved the Royal HS start location and quiet roads going with the ride, spread out, rest stop, you generally didn't like the bumpy rural "chipchip loop." Our intent was to get you off of FR-204 and cover some backroads but the bumpy roads took away the enjoyment. Next week noted!

OK, it's Monday, so we do have some very useful safety information to pass along...

Another four letter word we hear frequently in cycling, is "Pass". This season, it has not
